Casework Solutions

The logo for TMI, consisting of the letters 'TMI' in a bold, italicized, sans-serif font, followed by a small circle with a dot inside, all in white on a blue square background.

TMI Cares

Performance

is not a sometimes thing. It's an all-the-time thing. TMI casework and architectural woodwork will consistently perform at a high level, reliably supporting the work it was designed to facilitate day in and day out, year after year.

Expertise

We have learned the best practices from working with a wide array of commercial applications coast to coast. By designing and building solutions for so many different installations, we have amassed an impressive range of innovative solutions that can often be adapted to enhance the functional performance of work environments.

- We have been designing and building casework, countertops and architectural woodwork for commercial applications since 1969.
- We are committed to creating dynamic, comfortable and productive work spaces.
